

## CAPTURED, RELEASED AND CAPTURED AGAIN

Bank Robber Taken into Custody, But on Failure of Cashier to Identify Him Was Released and Apologized to—Later He Was Again Captured and Held.

Minneapolis, Minn., Aug. 26.—A band of desperate gunmen and saboteurs is evidently operating in the vicinity of the Twin Cities. Early this morning a daring attempt to blow the safe in the post office at Mendota, near St. Paul, was foiled by the strength of the safe and the approach of a night watchman, and at noon today two men walked into the State bank of Wayzata, Minn., and pointing revolvers at Cashier Simeon took him hand over all the cash in the bank. As they had the drop in him Simeon gave them about \$300. The men then ordered him to step into the bank vault, and as he did so, they turned and fled. They each ran swiftly up Main street for a block and then unroll into the woods west of the village.

Associated to Robber. The bank was given it once on the fire bell, and the villagers were seen organized into posse under Deputy Sheriff Parrish, of Wayzata, and Village Marshall Lunk. The robbers ran through the woods for nearly a mile and separated at the border of a swamp. One of the robbers was caught about an hour later on the Watervien road near a farm. He was taken in an automobile to the village where Cashier Simeon failed to identify him. He was then taken back to the post where he was picked up, apologized to, and released, promising to telephone if he saw anything of the robbers.

**Caught a Second Time.** A few minutes later the caught again by Elmer Day and Marshall Lunk who recognized him as one of the robbers and looked him up. On Sheriff Laugan's arrival the man was arrested and \$275 was found together with revolvers. He gave his name as George H. Lunk. He told of separating from his companion who had loaned him the money and offered to lead the deputies to his place. This he did and he was picked up. The robbers were unaware of any one in the vicinity apparently and carried his coat over his arm. Sheriff Laugan ran towards him, and had hold of his large revolver before he could shoot. He gave his name as Henry Bayler and said he came from Los Angeles two days ago and had been looking for work in St. Paul.

They were brought to the city in an auto and locked up in jail.

## FIRST 1909 WHEAT TO BE SOLD AT LETHBRIDGE

George McCallan Markets Lead to Auction Milling Company—Saskatchewan Wheat 5,000 Men Harvesters—Telegraphic News in Brief.

Lethbridge, Alta., Aug. 26.—George McCallan, farmer, about 30 miles west of Lethbridge, was the first to market 1909 wheat in Lethbridge. He sold a load to the All-Season Milling company here on Tuesday. It graded No. 1 northern.

Montreal, Aug. 26.—During the past five days, there has been much activity in the water department. The receipts for August amounted to \$200,000, which sum was practically taken in within two days. The increase over the same period last year is \$100,000.

Toronto, Aug. 26.—John Henry Bell was declared guilty of negligence in connection with the death of Rev. Al Percy Jones by a coroner's jury. Jones with other boys, were engaged in removing bricks from the cellar of a cottage on the new hospital site, when the wall adjoining the building in course of demolition by Bell fell and crushed him. The jury found that prompt precautions had not been taken in posting guards, though the wall was in an admittedly dangerous state.

Toronto, Aug. 26.—The first foot-marks of wheat may prove to be the last of extensive forgeries, were discovered at the Toronto office of the Union bank, when two checks came to that institution through the clearing house from American banks. The checks had been passed on local bankers, and had been cashed a couple of days ago. One bore what purported to be the acceptance stamp of the Union bank.

Refined, Sask., Aug. 26.—Saskatchewan needs at least fully 5,000 more harvesters to assist in safely gathering in her crop, though inasmuch as the crop is so far advanced 50 per cent. of the harvesters who have come from the east to ground for completion are fairly well made in connection with the distribution of eastern harvesters.

Kingsport, Aug. 26.—With a bullet wound in his head and a revolver at his side Wm. Smith, aged 65, was found in an unconscious condition in the room at a hotel at Coldbrook. He died soon after. The revolver was the property of the clerk at the hotel. Smith had only been in Coldbrook a few days and was employed at the mill.

Hamilton, Aug. 26.—James Cullen, 30 East Singson street, 30 years of age and unmarried, was drowned in the bay near here. With two companions, James Cullen and John A. Keever, he was in a small sailboat which capsized. Cullen sank but his companions clung to the bottom of the overturned boat and were rescued.

## STRATHCONA NEWS

### LOCALS

The marriage of Miss Lydia Fisher and Mr. P. J. McArthur, late in the employ of the Imperial Bank, will take place next Wednesday, September 28, at Strathcona. Mr. and Mrs. McArthur will make their home in the Strathcona. Mr. McArthur having resigned his position in the bank in Strathcona.

The death took place Thursday morning of the infant daughter of Mr. and Mrs. Charles Graham. The funeral will take place this afternoon at three o'clock at the Strathcona cemetery. Rev. Mc. Bowen will officiate.

The preparatory service in connection with the funeral of Knox Proctor will take place Sunday morning at the Strathcona church. The funeral will be held at the Strathcona cemetery. The funeral will be held at the Strathcona cemetery.

An adjourned meeting of the city council will be held this evening to consider the tender for the new fire hall, which were called for a few days ago. It is expected that the contract will be awarded this evening. The construction work commenced at once.

The congregational extension of Holy Trinity Church will take place next Tuesday evening, August 29, on the river on the City of Edmonton as far as Big Island. This excursion was planned some time ago, but was postponed owing to the boat not being ready.

The young men of Strathcona will give a dance in the Oddfellows' Hall tonight in honor of P. J. McArthur, whose marriage and removal from the city will take place next week.

Rev. Mr. Miller and Mrs. Miller will leave home at the Manor, Thursday night to the young people of the congregation, a large number of whom paid their respects to the new pastor and his wife.

A copy has not yet been received from Lord Strathcona to the invitation extended to him by telegram Wednesday to visit Strathcona on his trip west. It is altogether probable, however, that he will come to the city, as he has already accepted the invitation of the Premier to be guest of the province.

The lawn social given Thursday evening by the ladies of Holy Trinity Church was one of the most enjoyable of the season. The beautiful grounds of J. H. Tranter were illuminated by arc lights, instead of a customary incandescent lamp, and presented a scene of more than ordinary interest. Music was furnished by the Fire Brigade Band.

Mr. Walker, of Calgary, is visiting at Strathcona, the guest of Mr. brother, Newton Walker. Four friends of the south side of Whyte avenue, between the 10th and 12th streets, are now in progress. Excellent work is being done by David Hoffman, who has the contract.

# REVIVAL OF TRADE IN CANADA IS REAL

All Classes of Producers Share in the Movement Progressive Next Year May Touch the Highest Mark Manufacturers and Merchants All Speak of Steady Improvement.

Toronto, Aug. 26.—Less than a year ago Canada had not recovered from the cloud of financial depression. The crisis had passed, testing her stability and revealing her strength. The commercial entities stood solid on their foundations, the foundations of the shock were still felt. The nerve control of business had been restored, and industry, doubt, and timidity prevailed. To many the outlook appeared anything but hopeful. A long winter had to be faced with conditions by no means favorable to recovery from a slump, and generally the signs were not inspiring. But ahead of the severe of the situation were not discerned. Their diagnosis disclosed that the depression, though in the country had passed was not so recent, but rather a result of the transitory influences. The assets of the people were still worth one hundred cents to the dollar. Its credit in no way suffered. Its resources were as dependable as ever. As before, all that was required to restore the balance of the country was a restoration of the confidence for the time being lost. And events have more than justified the faith of the optimists. Within the space of few months the country has marked change. Slowly, almost imperceptibly, the process of recovery has been made felt.

**Hope Are Realized.**  
There has been no abrupt reaction, no sudden rebound, simply a steady readjustment, a steady improvement, a growing sense of confidence, and a feeling of optimism, as they now exist, admit absolutely no doubt that what is truly a revival of trade is a reality, and not merely the substance of the imagination. It is manifested in a hundred different ways, in statistics, in the market place, in the state of affairs, and in the general air of confidence which prevails.

**Improvement is Widespread.**  
A great improvement in business is evident in all classes of producers and goods firms. Eaton's, Simpson's, and Carter's all report a steady advance to the upward movement. The list of the most successful of the year is not a long one. The list of the most successful of the year is not a long one. The list of the most successful of the year is not a long one.

**Many Have Realized.**  
There has been no abrupt reaction, no sudden rebound, simply a steady readjustment, a steady improvement, a growing sense of confidence, and a feeling of optimism, as they now exist, admit absolutely no doubt that what is truly a revival of trade is a reality, and not merely the substance of the imagination. It is manifested in a hundred different ways, in statistics, in the market place, in the state of affairs, and in the general air of confidence which prevails.

**Only the Beginning.**  
In the opinion of many the upward movement has only just begun. It may end in a question for the future to determine. In the meantime it is sufficient that the country has reached a point where it is no longer a question of whether it will recover, but of how it will recover.

## ON THE UP-GRADE.

The bank statement for July 1939  
shows excellent evidence of the growth  
of Canadian business. As compared  
with the previous month deposits have  
increased by more than \$7,000,000. Cur-  
rent loans increased by more than  
\$4,000,000, and call loans by more than  
\$2,000,000. Loans made in Canada in-  
creased by more than \$1,000,000, in-  
dicating the withdrawal of money  
from abroad for use at home. As  
anticipating improvement in Canada in  
comparison with the figure for July of  
last year. In its twelve months the  
total deposits in our banks in-  
creased by less than \$1,000,000.

A comparison of the two statements  
shows the following—

July, 1938. July, 1939.  
Current loans in Canada ..... \$2,025,711.18 \$2,920,941.18  
Current loans elsewhere ..... 23,153,006.38 27,743,368.38

## GETTING TOGETHER.

The Maritime board of trade has  
endorsed a resolution approving the  
union of the provinces of Nova Scotia,  
New Brunswick and Prince Edward  
Island. One motive is the over-  
whelming power being secured in the  
national Parliament by the provinces  
whose populations are growing and  
a belief that in union there would be  
greater strength behind the common  
interests of the three maritime pro-  
vinces. In this connection it is worthy  
of note that these three provinces are  
the most densely populated in the  
Dominion. Prince Edward Island, with  
31 people to the square mile, Nova  
Scotia comes next with 22 and  
New Brunswick third with 11. The  
increase in their populations is prob-  
ably, therefore, to keep pace with  
that of the larger and as yet sparsely  
settled provinces, and whatever dis-  
advantages have been thought of in  
the growth of the western country in  
the matter of parliamentary repre-  
sentation may be expected to increase  
rather than diminish. Through union  
would not increase the number of  
members at Ottawa, if effect would  
be to make all the members rep-  
resented by the three provinces the  
representatives of each. Their in-  
terests are sufficiently identical or  
complementary to ensure the efficient  
support of all the members in their  
promotion, provided the present pro-  
vincial boundaries were abolished in  
thought as well as in fact. As the  
combined area of the three is only  
slightly in excess of 31 thousand  
square miles and the population less  
than a million, their contemplated  
union hardly threatens to upset the  
balance of power in the House. The  
burden of maintaining three provin-  
cial governments is considerable, and  
no doubt an argument for union, too.

A STATEMENT OF DEFENCE.

Prime Albert has a very lively head  
of trade with a very active interest  
as may be gathered from the action  
on the board's stationery that  
"Prime Albert" is the metropolitan of  
the Great Saskatchewan Valley. For  
some time past the board through  
its esteemed secretary has been stir-  
ring up the minds of western mem-  
bers by way of remuneration of the  
Hudson Bay railway. Apparently  
their response does not altogether  
satisfy the ardent administrator, for  
his latest effort is a double-barreled  
communication, which first castigates  
the editors for discussing British pol-  
itics, and second, more substantial  
demands that they sign a campaign  
for having the road end at Fort  
Churchill rather than at Port de  
Sarnia. It is quite possible that the  
Prime Albert board of trade, or its  
members thereof, or its secretary

thereof, is interested in having the  
road end at this port rather than  
the other. It is not to be questioned  
of course, that the energetic en-  
thusiast is qualified to decide all  
things, "might and main" that one  
word is specially ordained by nature  
for terminal facilities and the other  
absolutely or comparatively useless  
for any purpose, but when men  
have their limitations, and some of  
us are disposed to leave the matter  
to the engineers who are now in the  
leash trying to find the most con-  
venient and practicable route, while  
holding and asserting the propri-  
ety of every wish for the propriety  
of the secretary and the speedy ex-  
ecution of the Hudson Bay railway,  
it would be trifling with the expec-  
tations of our industrial commu-  
nity to tell him frankly that in the  
location of the line this project  
is its fault to the man with the  
transit.

## A HORRIBLE EXPLAN.

A municipal electric light plant  
at Brockville, Ontario, has been  
quitting and must be replaced.  
The plant was built and owned by  
the Montreal Gas and Electric Co.  
The Montreal Gas and Electric Co.  
is a company of the city of Brock-  
ville which has been established from  
the earnings of the plant and is a  
private corporation. The company  
has no longer serviceable and that  
bonds must now be sold to provide  
a new plant. It is true that the  
plant in question had been owned  
by a company the people of Brock-  
ville would have been taxed through  
their lighting bills to pay interest  
on the bonds and the company had  
been sinking funds to replace it when  
it was worn out that is they would  
have paid the investors for the use of  
their money and presented them with  
a new plant. They would have been  
exceedingly fortunate if beside these  
times they were not also charged an  
extra margin on the use of the plant.  
The investment or a large part of it  
during the life of the old plant. In  
which event they would have paid  
up to him the long trail to the  
investor on what it cost and bought  
them a new one without holding a  
dollar's worth of interest in the  
plant, but the long trail to the  
investor would stand that the  
company had their money back with  
interest and a brand new electric  
light plant for nothing. This  
opportunity is given to the Gazette  
and no doubt to Montreal gentlemen  
who are seeking for such chances to  
enhance their wealth. The people  
of Brockville are not very likely  
to lament their choice, however.

## CURRENT COMMENT.

The harvest excursions are run-  
ning. It is time for the people of  
Northern Ontario to take to the woods.

There are said to be three jobs in  
and about the city for every man  
who wants one. Building is active,  
a large amount of civic work is  
under way and the farmers and  
civilians are taking all who apply  
and asking for more. The work  
is eminently satisfactory to have  
the demand always exactly in prop-  
ortion to the supply, but that being  
impossible, it is much better to have  
jobs looking for men than men looking  
for jobs.

The Toronto Star does not agree  
with the Bulletin that there is a dis-  
position among Ontario papers to ex-  
aggerate half truths and other claim  
centricities that at times do  
local damage to some of the  
provinces. The Star, however, failed  
to notice the exception that the Bul-  
letin made to cover the cases of the  
Star and other eastern papers whose  
directing heads know the West and  
are animated with anything but prej-  
udice of its progress, or disregard of  
its welfare. The article was aimed at  
the "provincial journals" published in  
the smaller communities, and it is  
substantially true that a great many  
of these nobody who reads their cir-  
culars will deny, though it may be true  
that the officer is growing less pre-  
judiced.

Things at McKee's Rocks are be-  
coming more and more serious. There  
is a dispute over wages of the work-  
men of labor between an employer  
and his men. It must be a wrong  
system of wages and the men are  
which allows or impels strikers to  
turn from trying to prove the reason-  
ableness of their case, to the murder  
of other men and the destruction of  
property. Whether they gain their  
end by this means or not it is a  
sad and wicked method and at the  
end of the work harm and injury to  
both parties and the community at  
large. In the disputes it begets a  
wider feeling of the value of  
human life, an indifference to the  
prejudice to destroy rather  
than to create. These are character-  
istics which make for the undoing  
of society. These should be a force  
displayed in a strike district but

it should be devoted to the enforce-  
ment of law and the protection of life.  
The force as utilized should be de-  
voted to the manner of his crime  
and taught that bargains are made  
with profits and not piteous.

## THE TRAIL THAT GREW

One of the most remarkable high-

## TOOK CALGARY INTO CAMP.

The Indians, under Charlie Grier's delivery in the very first inning of yesterday's game and two-bagger, one each to Kelly and Burridge brought in four runs. The locals gathered nine safe runs in five innings, and with two on Burridge made a clean two-base hit scoring Grier and Kelly, Sterling fielded out to center.

An error by second base and a single by Connor scored Baker in Calgary's first inning.

In the second inning, Parker drew a base on balls and ran second on O'Brien's hit through the infield. Brennan hit down a beautiful bunt and Kelly with a two-bagger scored O'Brien and Parker. Grier got first base on fielder's choice. Brennan was caught at the plate. McGuire scored out at first, and with two on Burridge made a clean two-base hit scoring Grier and Kelly, Sterling fielded out to center.

The Indians added four more to the score in the fourth inning. McGuire singled west to third on Burridge's bunt and an error by Stange. Sterling singled, scoring both McGuire and Burridge. Parker singled. Sterling scored on Connor's error and Parker came home on a single by Miller. The game was called at the end of the fifth on account of darkness.
